Grade	81%

Internship

During my internship at NALCO in Bhubaneswar, I worked on a project involving GLPI (Gestionnaire Libre de Parc Informatique), a powerful open-source IT asset management software. My role focused on implementing and optimizing GLPI to efficiently manage the organization's IT assets.Through this project, I gained valuable experience in asset management, software implementation, and enhanced my problem-solving and technical skills.

Project

Portfolio Project
Brief Description: Built a personal portfolio website to showcase projects and technical skills.
Technologies Used: HTML, CSS, JavaScript, React, Node.js, MongoDB
Key Features:

- Frontend developed with React for dynamic and interactive UI
- Backend powered by Node.js with MongoDB for database management
- Full-stack JavaScript implementation
- Responsive design, optimized for desktop
